

Scholarship Programme Handbook

Information for Applicants

St Joseph's Institution International School
Malaysia (Tropicana PJ Campus)

**ENTER TO LEARN,
LEAVE TO SERVE.**

SJII MALAYSIA

St. Joseph's Institution International Malaysia (SJII Malaysia) opened its doors to students in August 2016 with 450 students and has now grown to over 800 students in total in its fourth year. Over the past 4 rounds of scholarship offerings, more than 70 scholarships have been awarded to deserving students planning to take the International Baccalaureate Diploma Programme in our school. We can already see the potential in our students to be leaders in the fields they aim to pursue upon graduation and we have high hopes for their success in the future. From our first graduated cohort, 3 students obtained 44 out of 45 points and over 30% of them scored 40 points and above. In addition to this, 46% of our scholars went on to receive scholarships from foreign universities. They are currently enrolled at New York University Abu Dhabi, Imperial College London, University of Pennsylvania in the USA, University of British Columbia in Canada, Tsinghua University in China, Nanyang Technological University in Singapore, and Osaka University in Japan, to name a few. We had equally good results in 2019 with another top student scoring 44 points while our school's average IB results were among the highest in Malaysia.

SJII Malaysia was established by alumni of SJII Singapore. The aim being to remain true to the mission of the Founder, St. John Baptist De La Salle: the provision of quality values-based, holistic education for the young. Instilling the core values of Faith, Service and Community is at the heart of this institution producing servant-leaders in the society. To teach minds, touch hearts and transform lives is the main goal of SJII Malaysia and we do hope that every member of our community enters to learn and leaves to serve.

Vision

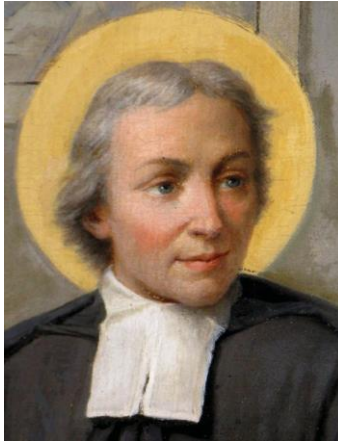

To be an international school of choice, recognized for values-centred education and learning driven by passion that nurtures persons who make a difference to society.

We are committed to developing our students to become thinking and caring global citizens who are at the same time securely rooted in their community, share common values and have genuine spiritual awareness.

Mission

Enabling youth to learn how to learn, and to learn how to live, empowering them to become people of integrity and people for others.

Lasallian Connection

Underpinning all we do is the ethos of the 330-year Catholic educational tradition of the De La Salle Brothers (named after St. John Baptist de La Salle, Founder and Patron Saint of Teachers) with its network of over 900 Lasallian educational institutions in 80 countries, including 67 universities. In addition to our students being prepared to do well academically for their International Baccalaureate Diploma studies, students will have the opportunity to discover their interests and talents in a caring, respectful and inclusive community which strongly emphasizes character, service and leadership development. The school has Lasallian Brothers in residence to provide support and guidance to students.

Students who leave SJII Malaysia will be:

Lifelong learners who are resilient, creative, problem solvers, adaptable and risk takers.

Equipped with life skills, which will ensure they are respectful, thoughtful, caring and compassionate

Internationally minded, with a sense of community and engagement; celebrating diversity; taking positive action and having global awareness.

WHAT WE OFFER

The International Baccalaureate Diploma.

The IBDP is widely recognised as one of the world's most challenging educational programmes. It focuses on personal, social and academic development and is globally recognised by leading universities for the holistic and rigorous education it provides. Success in the IBDP offers students the opportunity to gain access to the best universities in the world.

Nurturing and Caring Teachers.

Teachers at SJII Malaysia are not only highly qualified but are also nurturing and caring. All teachers are committed to holistic education, have high expectations, skilled practitioners and outstanding role models.

Strong Service Learning Dimension.

Teachers at SJII Malaysia are not only highly qualified but are nurturing and caring. All teachers are committed to holistic education, have high expectations, are skilled practitioners and outstanding role models.

Strong Service Learning Dimension

As a Lasallian school, all students have many opportunities to participate in service learning locally and in the region so that they can make a difference in the lives of others.

University Counselling Services

Our University Counsellor provides guidance on the selection of the subject choices that will lead our students to the tertiary institutions and university courses of their choice. The university counsellor assists in their application to tertiary scholarships and meetings, conversations and discussions with SJII Singapore's past scholars on their IBDP and tertiary experiences.

Lasallian Leadership Training in the Philippines

All SJII Malaysia scholars will undergo an established immersion programme in the Philippines where they will receive Lasallian Formation, Lasallian Leadership Training and be involved in service activities among the less fortunate in society. They will return to be senior leaders of SJII Malaysia upon completion of the programme.

OUR SCHOLARS

I am extremely grateful to be a recipient of the SJJIM IB scholarship because it has given me the chance to challenge myself and study this rigorous programme, while giving me a platform to develop my character and be a part of this warm Lasallian family.

I was first welcomed into SJJIM as a founding student and have enjoyed the school years with helpful classmates and dedicated teachers from different backgrounds. As a new school, there are many opportunities to help the school develop and each year, the improvements are tremendous and we now have a wide variety of extra curricular activities ranging from sports to academic clubs and even field trips and camps.

However, it was being an IB scholar that has developed me as a person even further and really prepared me for studying IB at SJJIM. This is because we attended a leadership camp in the Philippines which exposed us to the less privileged. We were given the opportunity to sympathize with their struggles by staying with them in their homes and played local games with them such as Chinese Garter. This experience was eye-opening for me as I was amazed by their raw talent and also moved by their happy attitude in life and their willingness to welcome us. It was them who inspired me to give back to the community and in turn inspire other people as well.

This made me realize how small actions can spark a passion and I can really see this in SJJIM. With dedicated students who take on various leadership roles in school and organise events or movements to contribute back and make a difference, life in school is busy yet extremely fulfilling. Examples are student representative council, Lasallian Youth Movement, House Captains and more. We also have volunteer programmes for the IB students and self led activities for the high school such as Project Hello and Eco-brick building sessions.

Although SJJIM is full of events and activities, I can testify to the fact that we are still an academic based school with quality teachers and constant support from IB Coordinator and the University Counselor. Resources is something that does not run out in SJJIM and I believe that since the aims of IB is in line with the school's - to grow holistically and be more internationally minded and caring, that SJJIM is a school tailored for the IB programme, and that IB is made much easier with this school.

Lastly, I would like to say that everyone is a potential scholar of SJJIM and we just have to take that leap of faith and apply for the scholarship. Just like me during the start of 2019 who had no idea that I would become a scholar and have the privilege to study IB here. And without a doubt, this is one of the best choices I have made and I am thankful for all the students, teachers and staff of the school who make my school life in SJJIM so memorably amazing.

Ng Siew Zhang (Emily)
2019/2020 SJJIM IBDP Scholar

OUR SCHOLARS

I can proudly claim that the past few months have been one of the most enlightening times of my life and in just such a short span of time, I feel that I have grown and developed as a person. I am ever so grateful to have been awarded a scholarship to pursue the rigorous course that is the IB programme here in SJJIM. Yes, the IB is no doubt a difficult course but I, and every other IB student here at SJJIM, can testify that the learning outcomes obtained from pursuing the IB heavily outweighs any possible downsides of the IB programme. SJJIM focuses not just on pure academics but also in extracurricular activities that promote a more holistic form of learning that will give birth to an all-rounded student. SJJIM also incorporates Lasallian Values into the learning process which really helps to consolidate the academia part of the syllabus together with the character development of an individual student.

By joining SJJIM, I am blessed with the most rewarding gift of being able to practice and preach the Lasallian Values to people around me who believe in the same values as I do. When I first met my cohort in August of 2019 during the Lasallian Leadership Camp in the Philippines, I was astonished by the sheer passion and ardour as well as the warm hospitality shown to us by the Lasallians in Philippines. My batchmates and I bonded instantly during the camp and we knew that the friendships we fostered will stick with us for life.

The best thing about my schooling life here at SJJIM is the fact that my cohort and I are always looking forward for the next day of school. Excellent, affable teachers here and state-of-the-art facilities create such a conducive learning environment for us students. I have never experienced a 'boring' day at school here at SJJIM and I'm sure this is the case for all the students here as well. Isn't this the goal all schools want for their students-enjoyable learning?

As a student leader of the school, my batchmates and I have been offered so many opportunities to lead and organize events for the school. A great example would be the Character Camp held in October 2019. I was put with the Year 7s and we went to Janda Baik, Pahang. In that week itself, I learnt so much about service and what it means to serve- it truly made me grasp our school motto is 'Enter to Learn, Leave to Serve'. Helping the Rohingya refugees and witnessing the Year 7s put their heart into serving the refugees truly opened my eyes to the wonders we students, Lasallians, are capable of achieving.

I've always wanted to pursue the challenging IB programme and SJJIM awarded me with the opportunity to do so with this scholarship. I know that my 2-year-journey here will definitely be an incredible one, thanks to my friends and my amazing teachers. My time here at SJJIM have been so fruitful and I wouldn't trade it for anything else in the world.
